and

opera voice

1 space - 4 artists - unlimited colors

Such as atoms colliding into unknown results, visual art, dance, opera voice, video and soundscape interact in an experimental process.

Far away from conventional theatre pieces and narrative worlds, **Masterpiece** is a rather challenging instant creation concept.

Within 30 minutes and a 30 qm space, the artists engage themselves intensively into a phenomenal metamorphosis that aims to leave an unforgettable under the skin experience.
